Rule Review Schedule 2022

Background

Pursuant to section 24-4-103.3, C.R.S., the Colorado Department of Transportation (“CDOT”) must conduct a review of its rules. The review will assess the continuing need for, the appropriateness, and cost-effectiveness of the regulations. The assessment will also determine whether the rules should be continued in their current form, modified, or repealed.

The review must assess the following considerations:

1. Whether the rule is necessary;
2. Whether the rule overlaps or duplicates other rules of the agency or with other federal, state, or local government rules;
3. Whether the rule is written in plain language and is easy to understand;
4. Whether the rule has achieved the desired intent and whether more or less regulation is necessary;
5. Whether the rule can be amended to give more flexibility, reduce regulatory burdens, or reduce unnecessary paperwork or steps while maintaining its benefits;
6. Whether the rule is implemented in an efficient and effective manner, including the requirements for the issuance of permits and licenses;
7. Whether a cost-benefit analysis was performed by the applicable rule making agency or official in the principal department pursuant to Section 24-4-103 (2.5); and
8. Whether the rule is adequate for the protection of the safety, health, and welfare of the state or its residents.

CDOT is currently responsible for 28 sets of rules (including the High Performance Transportation Enterprise, Clean Transit Enterprise, and Nonattainment Area Air Pollution Mitigation Enterprise rules). It is anticipated that a subset of the following will be added annually to the Regulatory Agenda. To ensure that the rules stay current and relevant, the review schedule will be posted each year, with adjustments in response to other rulemaking efforts and staffing and resource demands.

| CCR No. | Rule Title | Calendar Year |
|--------------|--|---------------|
| 2 CCR 601-17 | Implementation of the Use of Waste Tires for Noise Mitigation Purposes along Colorado State Highways | CY 2022 |
